🎓 EDUCATION

B.Tech – Artificial Intelligence

SRM Institute of Science and Technology, Tiruchirappalli
2024 – 2028

🔧 TECHNICAL SKILLS

Programming	: Python
AI / Machine Learning	: Machine Learning, Regression, Classification, Data Preprocessing
Computer Vision	: OpenCV
Web / Application	: HTML
Database	: Basic SQL
Tools	: Git, GitHub

🏆 CERTIFICATIONS & ACTIVITIES

- Google Data Analytics Professional Certificate — Google / Coursera
- AI Fundamentals — IBM
- Participated in Noob Hackathon at college

👤 PROFESSIONAL SUMMARY

B.Tech Artificial Intelligence student with hands-on experience in Python, Machine Learning, Computer Vision, data analysis, and AI-based application development. Built practical projects in face recognition, water-quality prediction, financial management, and computer vision. Seeking AI/ML, software development, or technology internship and entry-level opportunities.

📁 INTERNSHIP EXPERIENCE

Machine Learning Intern | Techvolt Software Pvt. Ltd.

- Completed practical training in Artificial Intelligence and Machine Learning.
- Gained hands-on exposure to Python, NumPy, Pandas, data analysis, and Machine Learning algorithms.
- Worked with Regression, Classification, Model Evaluation, and Data Preprocessing concepts.
- Applied Machine Learning concepts to real-world datasets through practical exercises.

Offline Internship – NLP / Computer Vision | Accent Techno Soft

- Completed an offline internship focused on Natural Language Processing (NLP) and Computer Vision (CV).
- Gained practical exposure to AI concepts and real-world applications in NLP and Computer Vision.

🔗 PROJECT

3D Floor Manager | HTML, CSS, JavaScript, 3D Visualization

- Developed an interactive 3D floor management interface to help students locate available classrooms.
- Implemented room-wise availability display with an easy-to-use visual interface.
- Added smart search and real-time room information for quick classroom identification.

Attendance Predictor | Python, Machine Learning

- Developed an AI-based system to analyze attendance data and predict attendance requirements.
- Provides insights into attendance percentage and helps students plan their future attendance.
- Applied data processing and prediction techniques to generate useful attendance insights.
